At Recharge Fitness, we specialise in equipping commercial gyms with premium fitness solutions. Since our founding in 2020, we have been dedicated to positively shaking up the sector—initially by consulting with sports stars on their personal gyms, supporting the general public during Covid, and more recently through our unique commercial model, enabling independent gyms to launch and scale their brands profitably. Our extensive range includes robust strength training equipment and versatile functional training solutions, all tailored to meet the demands of commercial environments. Backed by a team of industry experts, we ensure your new gym is launched on budget, on time, and aligned with your vision. At Recharge Fitness, we make launching your new gym easy. Triple award winners. 4.9/5 star rating.

LEAD TIMES

HIGH VOLUME > OUR TOP SELLERS

We maintain a high volume of essential gym equipment in stock at our Bristol HQ. These are the fundamental bits of kit that every good gym needs; flooring, benches, racks, dumbbells, kettlebells, bumper plates, bars etc. These are all immediately available for purchase with prompt delivery for your commercial gym. These will be listed on the Recharge website and within this brochure.

***TYPICALLY WE KEEP THESE IN STOCK. 2-3 DAY DELIVERY.**

BESPOKE > TAILORED FOR YOUR GYM

We offer bespoke solutions such as custom sled tracks and rigs and other made-to-order items. These items are produced specifically to meet your unique specifications and fit perfectly within your space. This model allows us to keep the price point low, offering you exceptional value however, typically these have a 10-12 week lead time. We will work with you to finalise your kit list and production schedule and keep you updated each step of the way.

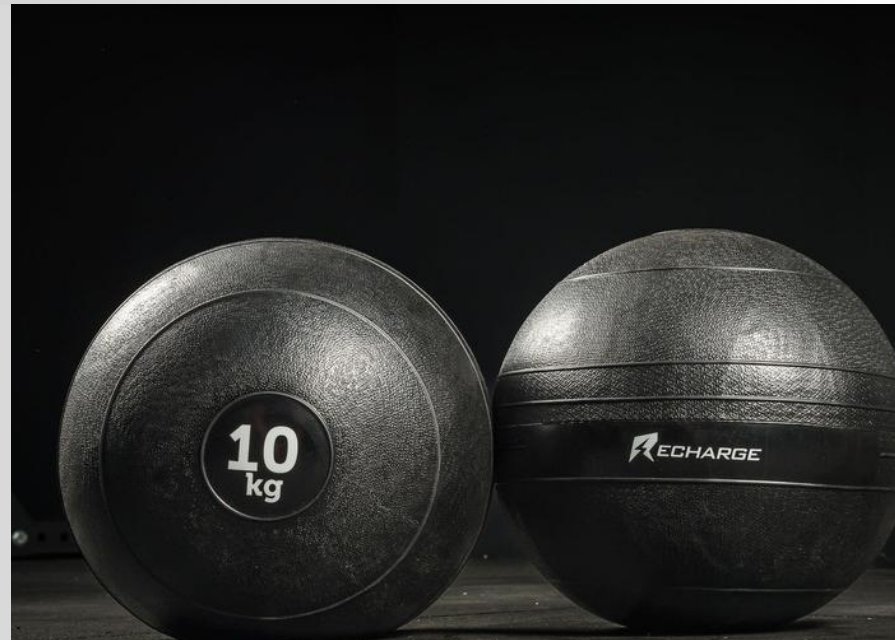

***TYPICALLY THESE ARE ON A 12 WEEK LEAD TIME**

DELIVERY OPTIONS

At Recharge Fitness, we're committed to making your equipment delivery and installation experience smooth and efficient. We understand that every setup is unique, which is why we offer flexible delivery and installation options tailored to your needs.

Delivery Options:

1. Pallet Delivery
2. Private Delivery

Delivery costs depend on the total weight of your order and the distance to your location.

INSTALLATION

Professional Installation Services

Our experienced installation team ensures your equipment is set up safely and to the highest standards. Installation costs are calculated based on the scope of your setup, including flooring and additional equipment.

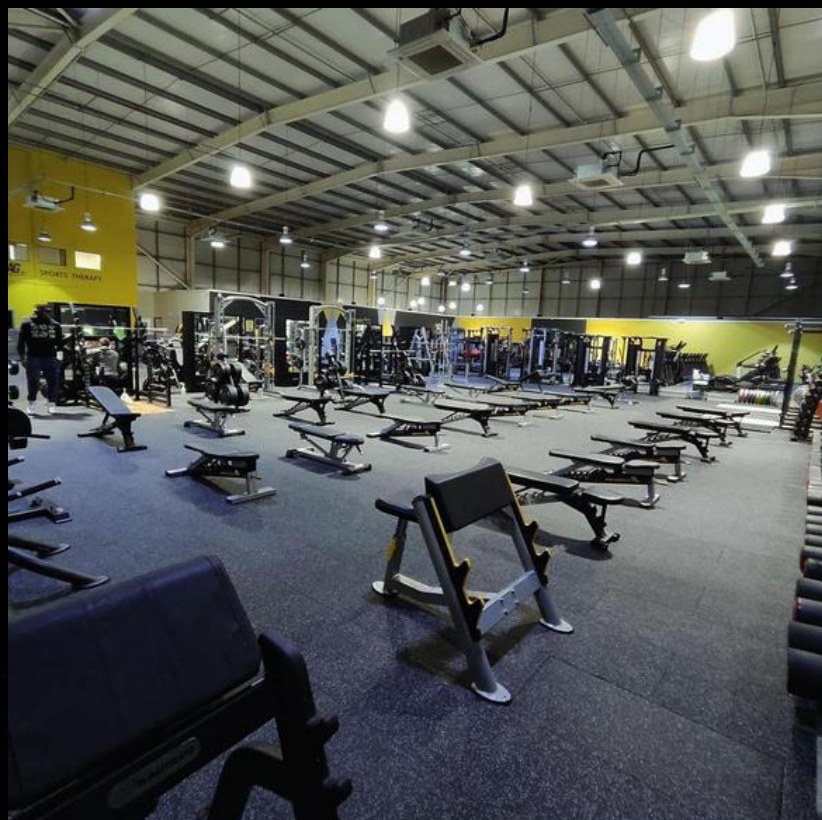

- Mileage – We charge £1 per mile for the total round-trip mileage from our location to yours and back.
- Flooring– £7 per square meter
- Other Equipment –General Kit Installation: £250 per day, per technician, for setup of gym equipment, racks, or specialised machines. excluding VAT

Contact us for a precise quote based on your specific order.

OUR WORK

TESTIMONIALS

MVMT. Founder. Esme.

“My entire experience with the whole team from Recharge has been incredible from start to finish. Communication from Ryan was clear and gave me everything I needed to start a new project of a second gym with a clear mind and complete confidence I’d made the right choice. From there on I had contact with Freya who gave me constant updates about custom products and everything that was going on which really kept my mind at ease.

Once it came to install, once again the team were incredible and friendly, especially Ian. As it was a big project I got to spend quite a bit of time with the guys whilst they worked to help me bring my visions to life. Ian, Nathan and Max went above and beyond to ensure everything was exactly how I needed it to be whilst getting constant check ins from Ryan. Without a doubt, **I will work with Recharge again on my future projects and would recommend them to anyone I could without a second thought.**

Thank you so much for bringing my dream to reality and continuing to show me support after the project too.”

Ark Fitness. Founder. Sean.

“Ryan and his team have been nothing short of exceptional. From the very start, he has provided support and guidance to enable me to kit out the studio as I had designed. His team were incredibly patient when I was dealing with delays in accessing the site due to it being a new development. Once I had obtained access and had a very tight window to get the place operational, his team leapt into action and sorted out all the equipment and logistics to get it to me in no time.

I cannot thank him and his team enough. As my first studio and doing the majority of the build work myself, I needed to be able to work with and trust my supplier. Recharge have been fantastic and I will be using them as my number 1 supplier in times to come and when we open Studios 2,3 and 4.”
